DEFINITION OF "JOB RELATED" EDUCATION

The Internal Revenue Service (IRS) states that "job related" education must

- be required by your employer or the law to keep your present salary, status, or job (and serve a business purpose of your employer) **OR**
- maintain or improve skills needed in your present job

****NOTE: The IRS also requires you to be established in a trade or business before starting your coursework and excluding from your income any educational assistance provided by your employer. Carrying on a trade or business has been defined as entailing considerable continuous and regular activity.**

HOWEVER, even if your education meets one of the above requirements, it is NOT excludable if it

- is needed to meet the minimum educational requirements of your present trade or business **OR**
- is part of a program of study that can qualify you for a new trade or business, even if you have no plans to enter that trade or business.

(A change of duties is NOT a new trade or business if the new duties involve the same work you did in your old job.)
